ABSTRACT

The data about compensation received in Illinois' 48 public community colleges presented in this 2002 report are gathered by the Illinois Community College Board (ICCB) and reflect the census date of October 1, 2001. ICCB staff provide the data on the colleges' behalf in response to requests for salary information from the Illinois Board of Higher Education, the National Center for Educational Statistics, the Legislature, and other interested parties. Data are presented according to seven statewide peer groups, which are based on a combination of enrollment, geographic location, and financial data. The report contains 25 tables that summarize salaries and fringe benefits for faculty, staff, and administration. Highlights include: (1) faculty salaries ranged from a low of $16,583 to a high of $106,504; (2) the state average for faculty salaries was $55, 824, and the median was $51,141; (3) part-time faculty rates ranged from a low of $275 per credit hour to a high of $671 per credit hour, with an average of $459; and (4) chief campus administrator salaries ranged from a low of $89,000 to a high of $194,400, with an average of $132, 427. (Contains 25 tables.) (NB)

# INTRODUCTION

Data about compensation received by employees in Illinois' 48 Illinois public community colleges are gathered by the Illinois Community College Board (ICCB). Data in the *Fiscal Year 2002 Salary Report* reflect the census date of October 1, 2001. The efforts that college staff put forth to provide these data are greatly appreciated. In an attempt to minimize the number of separate requests for salary data received by public community colleges, ICCB staff provide these data on the colleges' behalf in response to requests for salary information from the Illinois Board of Higher Education, National Center for Educational Statistics, Legislature, and other interested persons.

Data are presented by peer groups with statewide totals. The seven peer groups are based on a combination of college enrollment (semester), geographic location, and financial data:

I Headcount enrollment of less than 3,000, downstate, located in or near communities of less than 50,000 population.
II Headcount enrollment of approximately 3,000 to 4,000, downstate, located in or near communities of less than 50,000 population.
III Headcount enrollment greater than 4,000, downstate, located in or near communities of less than 50,000 population.
IV Located downstate and in urbanized areas.
V Headcount enrollment less than 10,000, located in the Chicago metropolitan area.
VI City Colleges of Chicago.
VII Headcount enrollment greater than 10,000, located in the Chicago metropolitan area.

Peer groups are separated by solid lines in the tables. As you move from top to bottom down the table, the groupings generally correspond to districts with higher enrollments in more urbanized environments. Within each peer group, the colleges are listed in alphabetical order.

Most tables in this report contain information on full-time employees. The report includes faculty salary data which are based on actual contracts, salaries from salary schedules, overload faculty salary rates, and part-time faculty salary rates. Also included are administrative salaries, other (nonteaching) professional staff salaries; information on average faculty load; salaries for selected administrators; salaries for positions similar to Universities Civil Service classifications; and fiscal year 2001 salaries actually paid to faculty, administrators, other (nonteaching) professionals, and classified staff.

Note that one Illinois public community college changed its name during fiscal year 2000. Southwestern Illinois College was formerly known as Belleville Area College. Individuals interested in making comparisons with prior editions of this report should be aware of this change.

## EMPLOYEE GROUPS

Descriptions of the employee groups used in this report are provided below. These categories correspond with *Fiscal Management Manual* salaries expenditures codes.

Faculty are individuals who spend more than one-half of their workload in the activity of teaching and providing instruction to students.

Administrative Staff are line officers of the college who manage, conduct, and administer programs, staff, and operations of the board of trustees. Academic administrators and general administrative personnel are included.

Classified Staff include clerical and custodial/maintenance staff. Clerical personnel engage in the process of keeping records and processing information upon the request and direction of college professional staff. Custodial/maintenance staff engage in housekeeping and the maintenance or repair of college facilities and equipment.

Other (nonteaching) Professional Staff include professional/technical, academic support, and supervisory staff. Professional/technical staff have specialized skills but do not directly support the process of teaching. Academic support staff exercise professional judgement and discretion and directly support the teaching and learning process. Supervisory staff have the duty, responsibility, or authority to recommend the employment, transfer, suspension, dismissal, promotion, assignment, reward, or discipline of other staff individuals both full- and part-time.

Section I

## FISCAL YEAR 2002 CONTRACTUAL BASE SALARIES FOR FULL-TIME FACULTY AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 1 summarizes the ranges of salaries for full-time faculty on 9-month contracts for fiscal year 2002. Faculty are individuals who spend more than one-half of their workload in the activity of teaching and providing instruction to students.

Table 2 identifies the lowest, average, highest, and median academic year contractual base salaries of full-time faculty with 9-month contracts at each community college in Illinois. Table 3 provides the same information for full-time faculty with 12-month contracts.

The low salaries represent the lowest contractual base salary actually paid to a full-time faculty member at each of the community college districts and may be different from salary schedule salaries which are reported in Tables 7 and 8.

The high salaries represent the highest contractual base salary actually paid to full-time teaching faculty members for an academic year at each of the colleges. The mean salaries represent the weighted average of all full-time teaching faculty salaries at each community college district. Statewide average salary data reported throughout this report are weighted average salary data. The median salaries reported are those which are the middle salary at each college. The median salary is generally considered to be the most appropriate measure of central tendency for salary data within a given college since it is not affected by extreme high or low salaries; however, it is not as meaningful when reporting statewide composite median salary data.

# FISCAL YEAR 2002 PART-TIME FACULTY SALARY RATES AND FULL-TIME FACULTY OVERLOAD AND SUMMER TERM RATES AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 4 summarizes part-time faculty and full-time faculty overload and summer term salary rates in Illinois public community colleges during fiscal year 2002.

Table 5 presents the average part-time faculty salary rates per semester credit hour and full-time faculty overload rates by each community college district. The first column shows the part-time faculty rate per course credit hour. This rate is the amount paid to part-time teachers who might, for example, teach a night class at an extension center. The second column shows the overload rate for full-time faculty for the academic year. This rate represents the amount paid to full-time faculty for teaching courses above the full-time load during the academic year. Often this is compensation for teaching an extra night class or for teaching an additional class in the daytime. The third column reflects the amount received by full-time faculty members for teaching a class during the summer term. Community colleges have many different bases for determining part-time faculty rates as well as overload rates. Some colleges pay a flat rate per course or a flat rate per term, other colleges base their rates on contact hours or credit hours, and still others pay an hourly rate. In addition, the overload rates for full-time faculty are based on a percentage of that faculty member's actual salary at some colleges.

# INSTITUTIONAL POLICIES RELATED TO FACULTY SALARIES AND FACULTY CONTRACTS AT ILLINOIS PUBLIC COMMUNITY COLLEGES FISCAL YEAR 2002

Table 8 summarizes the institutional policies related to faculty salaries and faculty contracts at each public community college district in Illinois. These policies often have a considerable impact on the salaries presented elsewhere in this report. The average number of weekly class contact hours per full-time instructional faculty, for example, has a bearing on the number of faculty that an institution must have to meet its needs. The length of a full-time academic year contract also has a bearing on academic year salary for full-time faculty. Table 9 shows these institutional policies for each college. Thirty-eight public community college districts reported that they have master contracts with the faculty.

In addition to the class contact hours, office hours, and academic advising hours, faculty members spend much time in grading papers, preparing class presentations, working on curriculum development, and serving on college committees. Accordingly, although the state average number of required weekly hours for the faculty does not total 40 hours, most faculty members spend over 40 hours per week on their full-time assignments.

# FISCAL YEAR 2002 CONTRACTUAL BASE SALARIES FOR OTHER (NONTEACHING) PROFESSIONAL STAFF AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 10 summarizes the range of fiscal year 2002 salaries for other professional staff in Illinois public community colleges. Tables 11 and 12 identify the number of staff and the lowest, average, highest, and median contractual base salaries paid to full-time other (nonteaching) professionals (9-month and 12-month) at each community college in Illinois. Other (nonteaching) professional staff include professional/technical, academic support, and supervisory staff. Professional/ technical staff have specialized skills but do not directly support the teaching and learning process. Academic support staff exercise professional judgement and discretion and directly support the teaching and learning process. Supervisory staff have the duty, responsibility, or authority to recommend the employment, transfer, suspension, dismissal, promotion, assignment, reward, or discipline of other staff individuals both full- and part-time.

The lowest and highest salaries represent the lowest and highest base salaries actually paid to full-time other (nonteaching) professionals at each of the community colleges. The average salaries represent the weighted average of all full-time other (nonteaching) professional salaries at each college. The median salaries represent the salary received by the person in the middle of the range at each college. The weighted state average salary of other (nonteaching) professional staff with 9-month contracts was $54,604. For other (nonteaching) professional staff with 12-month contracts, the weighted state average salary was $40,098.

# SALARIES PAID TO SELECTED ADMINISTRATORS AT ILLINOIS PUBLIC COMMUNITY COLLEGES DURING FISCAL YEAR 2002

A summary of the fiscal year 2002 contractual base salaries paid to selected administrators in Illinois public community colleges appears in Table 15. Table 16 shows the contractual base salaries paid to selected administrators in each of the public community colleges in Illinois during fiscal year 2002. The chief executive officer of the district is either a chancellor or a president and has overall administrative responsibilities for the district. The chief campus administrator reports directly to the chief executive officer of the district and has overall administrative responsibility for the college. Examples of chief campus administrators are the presidents or provosts at multicampus institutions and executive vice presidents for internal affairs at single campus colleges.

Due to the various administrative organizations which exist at the colleges, a particular position may not exist at some colleges. An analysis of the entire administrative structure must be made before making comparisons between similar positions at two different colleges. A number of factors should be taken into account when comparing persons in similar positions at two colleges such as the college size/number of full-time equivalent students, number of staff supervised, cost of living in a given region of the state, etc.

# FISCAL YEAR 2001 AVERAGE TOTAL SALARY ACTUALLY PAID AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 23 compares the contractual base salaries reported for fiscal year 2001 and the average total salaries paid to full-time faculty in fiscal year 2001. The fiscal year 2001 average total salary actually paid salaries include all overloads and compensation for extra assignments paid to full-time faculty from July 1, 2000 to June 30, 2001.

The state weighted average total fiscal year salary paid to faculty in fiscal year 2001 for those districts reporting data is $10,058 more than the state average academic year (9 and 12 months) contractual salary for full-time teaching faculty in fiscal year 2001. An analysis of total faculty salary is important because some community colleges make an extra effort to ensure that the full-time faculty have first chance at overload classes and extra assignments prior to hiring part-time faculty.

Table 24 contains the fiscal year 2001 average total salary actually paid to administrators, other (nonteaching) professionals, and classified staff.
